

SCIONBox

Andrea Tulimiero
Claude Hähni

Like your regular home router, but on steroids!

- Support regular Internet traffic
- Connect your devices via Ethernet or WiFi
- LTE capable
- Gigabit speed

More ...

- Native SCION traffic
- Regular IP traffic over SCION (**Scion IP Gateway**)

The new home of your old router

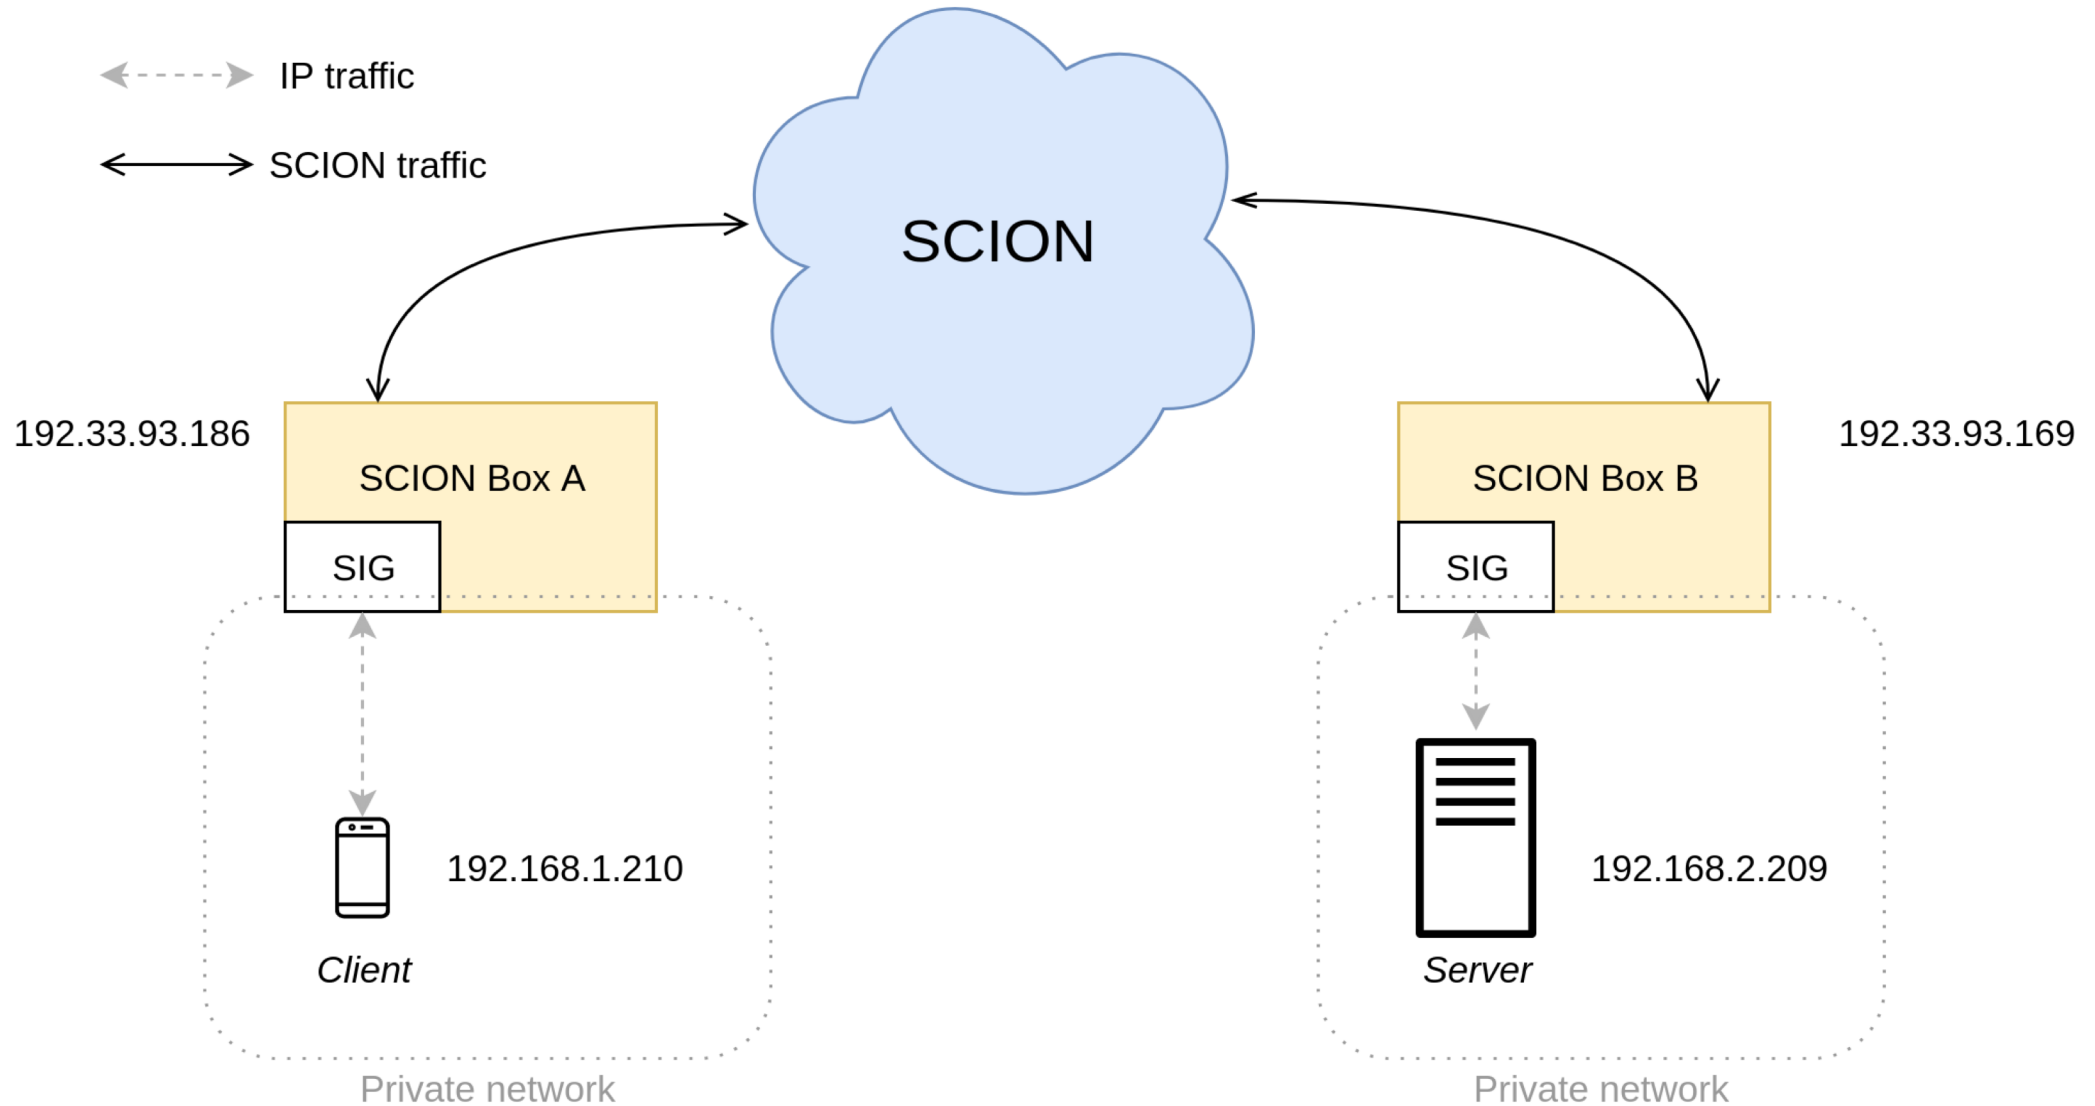

<Native Demo>

Your legacy applications on steroids, too!

- *Multipath* → **Fast failover**
 - (e.g., critical applications like medical uses or financial transactions)
- *Hidden path* → **High availability**
 - (e.g., remote micro branches can reach HQ under DDoS attack)

No changes required to local Devices
